

Functions engaged		Assessment criteria	Level of flexibility
<b>PC1</b>	Communicating with the computer	Telecommunication	Bluetooth => Distance : ...m
<b>PC2</b>	Controlling our system with the computer	Telecommunication & Coding	Low response time
<b>O1</b>	Optimizing	Weight	< ... g
		Size	
		Electricity consumption	< ... W
<b>M1</b>	Enable the user to locate the system	Altitude	$\pm$ ... cm
<b>T1</b>	Enables the system to fly	Motorization	... rps
<b>T2</b>	Enables the system to move without user action throughout the entire movement	Predefined path	
<b>T3</b>	Enables the system to take a photo	Photography	Clean & sufficient quality (JPG ? PNG ?)
<b>T4</b>	Allows user to view photo on computer	Telecommunication	One photo each second
